

The image features a dark teal, almost black, background. In the lower half, there are several concentric, dark ripples that spread outwards from a central point, resembling a stone dropped into water. The text 'b-yond' is centered horizontally and vertically, rendered in a white, sans-serif font. The hyphen is slightly larger than the other characters, and the 'y' has a small tail that extends downwards.

The Problem

The gate closes. The support ends. The habits fade.

Two people lose when the gate closes: the guest, and the retreat that just transformed them.

No bridge home

Leave Gwinganna and there is no path back to real life. Day-to-day support stops at the gate.

Connections lost

The gang you bonded with scatters.
The leader you trusted is gone.
Accountability evaporates.

Habits don't stick

Motivation fades within days. Old patterns return until the next retreat if there is one.

The retreat loses too. **The relationship ends**, the guest drifts, and the next booking goes uncaptured.
The business that delivered the breakthrough gets none of the credit.

“The work is not done on retreat. It is done when you get home. Right now, no one owns that journey home.

The \$1 trillion is what guests spend.
Our **customer is the business** that serves them.

\$1T+

global wellness tourism crossed
US\$1 trillion in 2024

~8.9% CAGR — projected to roughly double by 2033

200k+

spas & wellness facilities
worldwide, up 15% since 2019.
Every one of them needs retention.

The spend is on the week away

Guests pay thousands for the retreat. Almost nothing exists for the 51 weeks that follow.

Retreats want retention

Repeat visits are the prize. A bridge product deepens loyalty and lifts re-bookings.

No clear category winner

WhatsApp groups and generic fitness apps fill the void. None own 'post-retreat'.

The Concept

BEYOND turns a one-week high into a year-long habit.

A subscription that keeps the leader you trust, the people you bonded with and the practices you started, and rebuilds them into daily life.

Platform

The pillars are the destination. The enablers are how members get there, and keep going

What every member works on

Modelled and mapped to a trusted and proven framework (Gwinganna), so it earns credibility in a partnership conversation.

1

Nourishment

Take-home dietary habits, saveable & shareable recipes, goal windows (30 / 100 days).

2

Movement

Guided Chi Gong, yoga and tailored sessions. A virtual PT — solo or with your group.

3

Emotional Wellbeing

Mindset, stress resilience, breathwork, digital detox, strategic rest, Nervous-system regulation.

4

Sleep

Build sleep quality, quantity and consistency. Lucy: 'arguably the most important pillar.

5

Toxic Load

Reduce the load. Organic food, low-tox products, immersion in nature.

How the work gets delivered, and sustained

Your Coach

The leader you met on retreat, now at home.

- Monthly 1:1 progress sessions
- Personalised daily affirmations
- Answers in the group on nutrition, goals, recovery
- Facilitates group conversations

Your Community

The gang you bonded with, kept together.

- Share stories, progress, wins & losses
- Weekly cook nights & group goals
- In-person meet-ups, camps, mini-retreats

The Platform

The home everything lives on.

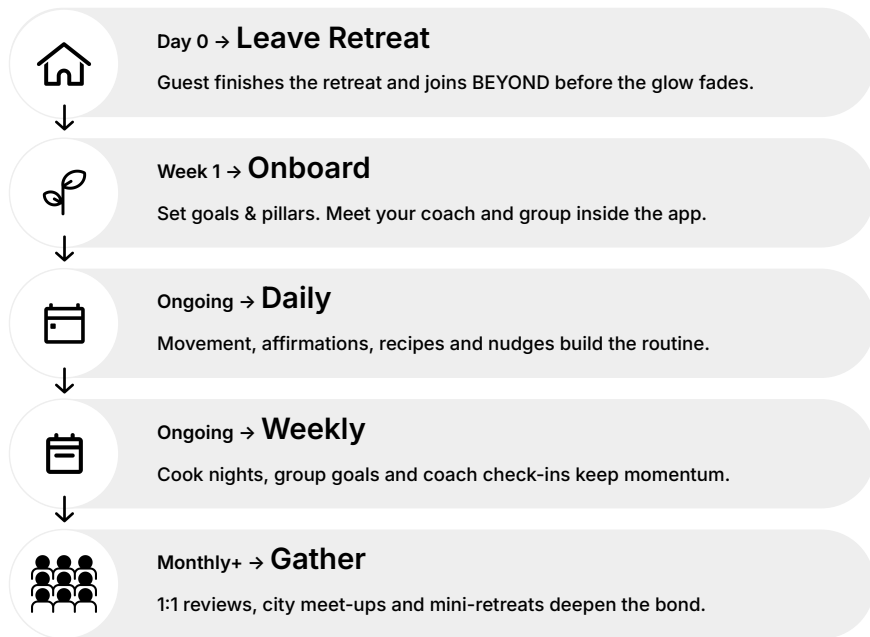

- Content, tracking & nudges in one app
- Instrumented to learn what members use
- The connective tissue across pillars

The Member Journey

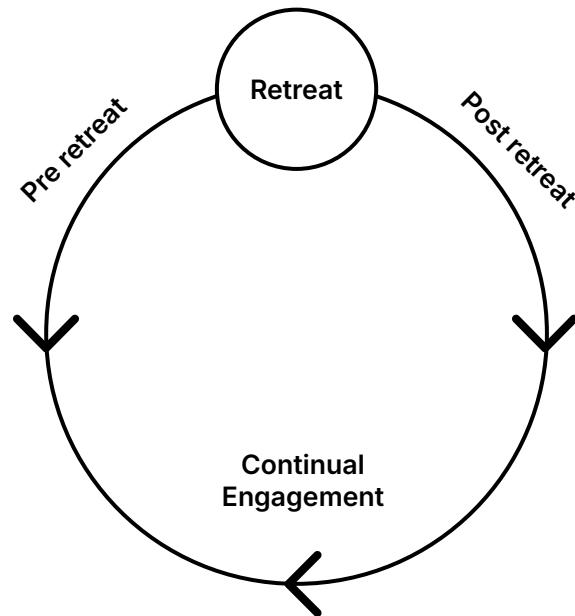

A lasting habit built on continual engagement.

The cadence is the product. Daily nudges build the habit; weekly and monthly touchpoints hold the community.

For the **Customer**

For the **Retreats**

Subscription and reward commitment

The longer the commitment, the lower the monthly rate. Anchors retention from day one.

12 months

"I'm committed until I return"

\$180 /mo

6 months

"Half way home"

\$250 /mo

3 months

"Coming back real soon"

\$350 /mo

1 month

"Let me try"

\$550 /mo

We don't sell to people. **We sell to retreats.**

BEYOND is the retention engine retreats can't build themselves. White-labelled, and run by their own facilitators.

Selling to individuals

- Cold acquisition, high CAC
- Churn-prone monthly subs
- Competes with every wellness app

Selling to retreats

- Warm guests delivered
- Low CAC, recurring contracts
- BEYOND becomes category infrastructure

What the **Retreats** gains

Re-bookings rise

Own the loop to the next retreat.

Higher guest LTV

One stay becomes an ongoing relationship.

No new hires

Facilitators become the coaches

Revenue, year-round

Monetise the 51+ weeks they currently earn nothing from.

Brand stays alive

Top of mind between visits, fuels referrals.

Guest Insight

See what actually sticks after guests leave.
